9 suspected NPA hired guns nabbed in Laguna

By Marlon Ramos
Inquirer Southern Luzon

CAMP VICENTE LIM, LAGUNA—Police arrested on Tuesday night nine suspected guns for hire of the communist New People's Army (NPA) while on their way home from a failed mission to allegedly assassinate two candidates for mayor in Capizzone province.

Palace refuses to give copy of Melo report

Palace goal: Cut House impeachment numbers

By Norman Bordadora

THE ADMINISTRATION Congress has adopted a strategy to clear first re-elections and new members of the House of Representatives who may seek to impeach President Macapagal-Arroyo in the incoming 14th Congress.

The opposition needs one-third or at least 74 seats in the House to automatically trigger the Senate a third impeachment case against Ms. Arroyo.

The Lakes Christian Health Foundation and Kalikasan ng Maynila (Kang) have agreed to field a common candidate against opposition members of the House, Congressman Sir Rup-Luis Villaverde, Kang president, said yesterday.

Villaverde noted that those who voted for the impeachment in 2005 numbered 51 while those who did in 2006 dwindled to just 32.

"We 32 will also be reduced substantially to many of them are three-termers who can no longer run for their old seats in the House," he said.

He said the goal of the administration coalition was "to defeat half of that 32."

"Giving the opposition from the House is not the objective," Villaverde said.

But it's far fair to work for the anti-Arroyo forces' deliver, he said.

The President's supporters in the House debated strategy at

Ermita: Findings still not complete

By Michael Lim Ubas

MALACANANG HAS REFUSED TO FURNISH THE European Union and the United Nations Commission on Human Rights' special rapporteur a copy of the findings of the Melo Commission, insisting that the report on extrajudicial killings was still incomplete.

The report, which has yet to be made public, failed some of the killings of leftist activists to the military, particularly retired Maj. Gen. Jovito Salazar, President Macapagal-Arroyo's former Melo Commission, which is chaired by retired Supreme Court Justice Juan Melo, in August 2006.

Both the UN and UN Special Representative Philip Alston have asked the Palace for a copy of the report.

Executive Secretary Eduardo Ermita yesterday said of his report weekly briefing that the commission's report was just "a preliminary report" and "by no means complete."

He reminded reporters that his Arroyo had earlier directed the Melo Commission "to continue with its work."

Short of saying that the report was one-sided, Ermita pointed out that "innocent persons" other than military and police of which had not accepted the commission's invitation to attend its hearings.

The families of those killed, as well as members of military

DEVASTATED ALBAY is a rock formation in Barangay Mayon in Guimaras, Albay, where more than 200 perished as torrents of sand and boulders from the slopes of Mt. Mayon at the height of Super typhoon "Rising."

Devastated Albay towns stirring back to life

By Jocelyn K. Uy

(Staff of Inquirer)

SOME TOWNS OF ALBAY THAT Super typhoon "Rising" ruthlessly brought to grief and near capitulation last Nov. 30 are stirring back to life.

Streets have been cleared of toppled trees and broken tail-boats, roofs have been fixed, the rough terrain of sand and boulders where once there were people ready to be buried. And green is again coloring the fertile mountains.

Visitors are back on the streets of Legazpi City.

Morning, city people looking

at

changes of students head to their classes. (Students opened early in January even as classes continue to ramp outside and major repairs have yet to be completed.)

DEVASTATED A2

HMGA VILLAGE Transit center for 1,200 evacuees.

But in the isolated districts, where the effects of Rising's fury are still evident, women gather under the trees exchanging stories as they wait for food rations.

The market, killed from farming with their land buried under boulders Mayon's volcanic debris, they themselves in voluntary work.

In government offices, provincial and local officials and volunteer members of nongovernment

Believers see 'sad image of Christ' on rock

By Ephraim Aguilar

Inquirer Southern Luzon

GUIMARAS, ALBAY—A boulder bearing what believers claim is a "sad image of Jesus Christ" is drawing the young and old alike to a village here.

Villagers last week found the rock in Barangay Mayon, which lost more than 200 people to torrents of sand and boulders loosed from the slopes of Mt. Mayon when Super typhoon "Rising" hit the province on Nov. 30.

Rising left more than 1,200 people dead or missing in Albay.

Don-lop, 44, a resident of the village, said the boulder carried a timely message.

"Many of us have forgotten Him and only remember Him when a calamity occurs."

His wife, 44, said that his wife's joy at Don-lop's life. His everyday life. Many also believe in two more

24 freed Pinoys coming home

By Michael Lim Ubas

THE 24 FILIPINO SEAMEN FREED on Tuesday by kidnappers in Nigeria's central oil region will return to Manila over the weekend, President Macapagal-Arroyo announced yesterday.

"I am glad to learn that the released ship crew are all well and may soon be reunited with their families," the President said at the induction rites of the Philippine Chamber of Commerce and Industry.

"I would like to personally thank Nigerian President Obasanjo for making a direct hand in the release of our countrymen as I pray for the eventual release of those still held," she said.

The seamen were seized on Jan. 20 by pirates from a Nigerian-flagged, German-owned cargo ship, the *Seaman*, near the coast of Nigeria. (List of names of seamen on Page A13.)

24 FREED, 6/18

ALMOST HOME The 24 Filipino hostages released and freed from their place of captivity are scheduled to arrive on Saturday.

Leyte survivors discover love among ruins

By Joni Aranz

Inquirer Iloilo

NEW GUERREYAN, ST. BERNARD, Iloilo. Leyte—Where she has been heard to the landslide that wiped out her village on Feb. 27 last year, the thought of finding love again never crossed her mind.

But Maria Bernado, 50, did find love in Modesto Libano, 47, a neighbor in her old village of Guerrero who had lost his wife in the same tragedy. They were married yesterday on the Day of the Virgin.

After the landslide, Maria and Modesto

**Life with diabetes.
It's sweet when you manage your weight.**

When you're taking with diabetes, you know how important it is to maintain a healthy weight. Your doctor shows that proper weight management helps control your blood glucose and reduces other health risk factors. Unfortunately, you also know how hard it is to actually lose the pounds.

That shouldn't be a problem with NUTRINE®. It's formulated specially designed nutrition as a balance for people with diabetes. By simply replacing a meal with a glass of NUTRINE® Diabetes is

smoother on a NUTRINE® Diabetes Cereal Bar, you can:

- Achieve and maintain a healthier weight
- Feel less hunger to prevent unnecessary snacking
- Manage your blood glucose better

NUTRINE® gives you the nutrition your body needs with the good taste only foods can give. It lets you stay weight in you don't lose but on life.

LIVING WELL WITH DIABETES

Goodbye Lipo, Hello Ultrashape!

Ultrashape – Lipo Without The Suction continues to make waves in the slimming industry since its official launch in Manila early last year. Tagged as the first non-invasive breakthrough in body contouring, Ultrashape uses an ultrasound beam to breakdown and liquify fat from outside the body. Promising an average reduction of about 2cm in just one treatment, it effectively reduces the deposits on multiple body areas such as the tummy, flanks and thighs.

A small amount of fat reduction is just not worth undergoing surgery for. Liposuction usually involves massive body contouring, and is often not recommended when only a few inches of fat have to be removed. Thus, for the majority of people who only need a few touch-ups, Ultrashape offers a much safer alternative. It gives the benefits of liposuction without the risks or side effects, surgical scars and downtime. The result? Smoother, taut and shapely curves you can flaunt even without your clothes on!

Due to its increasing popularity, demand for Ultrashape is high even reaching to fully booked appointments schedules from its growing sector of clients. These women have realized – they have finally found the best alternative to liposuction!

→ **Clean Zulanta-Laguerres, 37**

"When Ultrashape was offered to me, I was excited! Ultrashape concentrates on that fat hard-to-lose fat that comes in your body even after you're fit and single. I told myself, if not, there was a chance to lose all that chubbery (it that just wouldn't) seem to go away. The doctor explained that Ultrashape disrupts the fat cells in the targeted areas like my stomach and thighs. From there, the fat is metabolized and burned naturally by my body's energy. The treatment takes

an hour and a half and is done over a month. Ultrashape is truly the perfect slimming touch for people like me who have lost weight but still have some loose and bumpy. After my first treatment, I immediately said to myself 'yes, it's perfect!' Ultrashape definitely has all the benefits of lipo minus the surgery and all the risks! There's no downtime whatsoever. So yes, yes, Ultrashape is a miracle!"

→ **Lyn Ching-Pescual, 34**

"What intrigued me about Ultrashape is its claim – the way treatment you can have in just lunch break. Apart from that, a friend of mine said that her friend tried Ultrashape as soon as it came out in the market. And she immediately lost 2 inches in just one month! Ultrashape promises an average of about 2cm, that's true. But it's also

possible for someone to lose more than that too. That's why for me, even if liposuction was the only weight loss treatment available, I'd rather walk up a building 300 times than have an operation because I don't want the possibility of dying for vanity. With Ultrashape around, everyone now gets a better slimming option. Since it's non-invasive, I've got nothing to worry about. After trying it, I realized, I said like 'it's like magic!' I just walked in, got the treatment and after an hour, I was on my way back to work again. It's as if nothing happened. The best part was, I could feel my tummy flatter only after a few weeks! No doubt it's the perfect way to lose those extra fat!"

→ **Cristina Corrales-Parronilla, 42**

"Nothing really compares to Ultrashape. When I tried it, I immediately lost 1cm in my tummy after only 1 session! Imagine what a couple of sessions more you do! Diet pills and crash dieting don't work for me. With my catering and event business, I can't just turn my back from eating and enjoying my own menu. Moreover, if it's lipo, we're going to compare Ultrashape with lipo, doesn't even come close to it as far as safety is concerned. Besides, with Ultrashape around, why would anyone still come to apply for liposuction? I must be very desperate as I must be so fat that I could no longer even believe I'd consider getting it done. I just find it too dangerous!"

Undoubtedly, Marie Perera's Ultrashape is solid proof that the trends in slimming now stand towards the approach that's safer yet as effective. After going through a weight-loss program, it is highly recommended to continue with Ultrashape treatment right after. It's the best final touch-up in getting rid of remaining stubborn fat in the body for lasting wholeness, and Marie Perera was at 84-60-95 (2011).

Lafayette restart slammed

By Helen Glavin and TJ Bargeaux

A CABLECAST GROUP AND SENIOR INVESTMENT groups have denounced the government's recent decision to allow the resumption of operations of the American-owned Lafayette-Hitting Ltd. in Baguio City, Itbay.

"They just don't get it," Investment Adviser Inc. (IAI) said in a statement released Monday morning that warning in Baguio City is the "most serious" in the country.

"It's obvious," said the head of the national labor-bank group, Panaytonio Latorre, who is also a member of the IAI.

Members of the Philippine Investment Group (PIG) also expressed their opposition to the Department of Environment and Natural Resources' decision, which they believe is "a slap in the face" of the local business community. "We are not in a position to allow a foreign company to operate in our country," Latorre said.

In 2001, Lafayette Hitting was suspended following a massive falling rock that resulted in multiple casualties and injuries. The company was then ordered to shut down its operations in the area. "We are not in a position to allow a foreign company to operate in our country," Latorre said.

The bid was said to be a "renewal" of the company's operations.

The protesters, composed of Iloilo-based students, church leaders, and environmental groups, said they would continue to monitor the situation and would not allow the company to resume operations.

The group also said that they would continue to monitor the situation and would not allow the company to resume operations.

"We are not in a position to allow a foreign company to operate in our country," Latorre said.

"We are not in a position to allow a foreign company to operate in our country," Latorre said.

ADVISORY
eCard Plus issuance in the United States of America

We will be launching the eCard Plus and the G-WIPS in the United States to service old-age and survivorship pensioners there. Pensioners can apply for eCard Plus, via self registration, and consequently comply with our annual reporting requirement through the G-WIPS kiosks.

The kiosks will be installed in the following Philippine Consular Offices: Los Angeles and San Francisco, California; New York City, New York; and Chicago, Illinois.

For the convenience of our pensioners in the US, the GSIS will hold aided eCard Plus enrollments in the following Consular Offices:

AREA	Enrollment Dates
Los Angeles	February 21, 22, 23, 26, 27, and 28 / March 1 and 2
San Francisco	February 27 and 28 / March 1, 2, 3 to 9
New York	March 9, 12 to 13
Chicago	March 14 to 16

Pensioners can apply for their eCard Plus in enrollment centers nearest their residence, or at the mentioned Consular Office which has jurisdiction over the state where they live.

With the eCard Plus and the online annual reporting via the G-WIPS, pensioners no longer need to report to GSIS offices annually. They can even withdraw their pension, in US Dollar, using their eCard Plus in any ATMs under the Visa Plus network.

We would appreciate it if you could help spread the word on this, especially if you have relatives and friends in the US who might be interested about this place of good news.

Thank you.

ATENEO DE MANILA UNIVERSITY
ATENEO DE MANILA UNIVERSITY
ATENEO DE MANILA UNIVERSITY
ATENEO DE MANILA UNIVERSITY

The De La Salle University Medical Center (DLSUMC) in Davao City has a major milestone this year as it celebrates its silver jubilee. With the theme "DLSUMC 20 years achieving its ideal," the celebration will highlight the prominent position in health care and delivery, and the people who made DLSUMC the most comprehensive hospital in the region.

DLSUMC STILL THE BEST IN HEALTHCARE IN REGION IV

Across the Philippines, the Hospital was the first to be given the ISO9001:2000 Certificate, having over 1,000 hospitals, over the ones located in Manila. The honor was conferred by TÜV Rheinland Philippines, Inc. In 1999, DLSUMC was the first hospital in the Philippines to be given a certificate. However, after DLSUMC passed the three-day audit with flying colors, other hospitals have since followed suit.

ISO stands for International Organization for Standardization and is a group propounding quality management systems by which organizations build customer and product-oriented, not cost-oriented. According to its website, the benefit of ISO for the customers is that it creates choice of "quality, value, and reliability." The Hospital having met standards imposed by ISO, a network of business of standards in 17 countries, may be classified as among the medical centers upholding international gauge of quality and excellence.

The quest for providing better health services did not stop after the certification. In fact, the Hospital got accredited by ISO in 2000. Two years after that, the Hospital topped a month-long audit as it was awarded the ISO14001:1996 Environmental Management System Certificate. The honor recognized DLSUMC's adherence to globally-accepted standards for promoting environmental protection and resource conservation. In short, the standards to being awarded top-notch service lies not in the nature of the environment, from which one could benefit.

Awards are but the tip of the iceberg for the Hospital. Previously, it also topped the "Star Hospital" award in Region IV, and was named by UNICEF as a Mother-Friendly Hospital. But the reason for its excellence is the people.

Dr. Paolo Campos, a medical scientist, was a research supporter of this belief. He contributed the University Medical Center in 1962 as a teaching hospital for then General Emilio Aguinaldo College, and in compliance to a UNICEF requirement for medical schools to have their own teaching hospital. The House of St. Paul of Chartres was commissioned to run it. The medical school and later the hospital, was established in support of a government drive to improve delivery of quality education to the students. Thus, Campos put up his own in the 27-year property in Bagumbayan, Cebu.

In 1997, De La Salle University took over the management of both the school and the hospital. The latter's name was then changed to the De La Salle University Medical Center, DLSUMC, currently serves as the training hospital for De La Salle Health Sciences Campus' Colleges of Medicine, Nursing, Physical Therapy, and Radiologic Technology.

From its "small" beginnings as a 100-bed hospital, it has now doubled its capacity, with a pediatric ward and bed allocations for adult patients. The DLSUMC has also grown in terms of specialties of specialists offered through its various Centers, among them: Tuberculosis, Tumor-Cancer Diseases, Fire, Trauma, Adult Dermatology, to name but a few.

On the work of its Silver Jubilee, wedding, birthday celebration, the new DLSUMC Diagnostic and Imaging Center will be inaugurated. The Hospital will bring in new equipment from General Electric, including the Lunar Prodigy Advance Digital Diagnostic, the Millennium SPM Gamma Camera, and the Signa Profile Force Diagnostic Resonance Imaging system.

Over the past 25 years, the Hospital has served as a beacon in the region by setting the benchmark in the delivery of excellent institutions, and training of competent and ethical health professionals. Not only does it have the recognition as given to it as a comprehensive teaching hospital by local and international standards, it also serves the purpose of the people of Cebu and its environs, for which the Hospital strives to continuously grow, improve, and improve the best. It is DLSUMC's endeavor to commitment to be a genuine service for Church and Nation.

De La Salle-Health Sciences Campus
De La Salle University Medical Center
www.dlsu.edu.ph

DLSUMC & GE: forging new partnerships

The Lunar Prodigy Advance Digital Diagnostic, a state-of-the-art scanning tool, allows for early diagnosis and treatment of osteoporosis.

With the Signa Profile Magnetic Resonance Imaging (MRI), patients can expect sharp, precise images to assist diagnosis quickly to treatment.

A clear, detailed diagnosis is integral to effective treatment. The Millennium SPM Gamma Camera is capable of much, much more than five scans to allow blood cell imaging.

The De La Salle University Medical Center (DLSUMC) and General Electric (GE) have a new partnership.

For the inauguration today is the new DLSUMC Diagnostic and Imaging Center located in the address of one of the area's most recognized firms, GE. The event is part of the Silver Jubilee Celebration of DLSUMC, launched from February 12 to 16.

The Hospital received three new diagnostic equipment from GE. The Lunar Prodigy Advance Digital Diagnostic, a computer-assisted whole body scanning tool, is the most comprehensive machine the DLSUMC has. The Signa Profile Force Diagnostic Resonance Imaging (MRI) system is the Center. Both machines, which make high-resolution whole body imaging services to analyze various organs, vessels, tissues, and other vital parts, are part of the Nuclear Imaging Service of the Center.

In addition, DLSUMC will also add the GE Millennium SPM Gamma Camera and the GE Millennium SPM Gamma Camera. The Millennium SPM Gamma Camera is capable of much, much more than five scans to allow blood cell imaging.

As part of this new partnership, GE will provide service applications and operators training for radiographers and training for doctors to clinical sites in the U.S. and in Southeast Asia.

Other services offered by the DLSUMC Diagnostic and Imaging Center are general radiography, CT scan, ultrasound, mammography, fluoroscopy, radioisotope laboratory, radioactive iodine uptake and therapy, and more health care facilities and patient education.

Reavis sparks Kings rally

Harbour Centre guns for 2-0 cushion today

ARMY FINALLY SURVIVED A better opening, Harbour Centre will be battling with another team when it shoots for a 2-0 lead against Hapag-PCL today in the 2007 PSL Season 11 Super Cup basketball playoffs.

The Port Moresby-based team is the best of five teams, 64-60, at its going through some recent setbacks and coach Jorge Gallardo believes that everything will go well for his team.

"Our championship experience greatly helped us, but the 500," said Gallardo, adding that Harbour will be going after the 7 p.m. game at the United Sportsplex College Gymnasium tonight.

Harbour Centre, which is going for a second straight title, will usually be going for a fourth straight win, the first two of the season coming at the expense of Hapag-PCL in their previous season.

By Agapocelli, he said, it will all lead down to execution and the efficiency of the team to carry its lead into the final game.

"Our past title winning was not a defeat. We showed no mercy in our previous title game," said Hapag-PCL coach, who closed the team's experience as a secondary reason. "We have to show will in the last few minutes and make sure our players are focused," he added.

HAPAG-PCL'S Ronald Buxas (left) and Harbour Centre's Richard Mestas (center) try to regain possession of a loose ball during the game.

Adjustment will also be the key reason of both teams' success, the league's leading MVP contender. "We have to show will in the last few minutes and make sure our players are focused," he added.

They play a highly physical game and we have to watch their energy level and stamina," said Hapag-PCL coach, who closed the team's experience as a secondary reason. "We have to show will in the last few minutes and make sure our players are focused," he added.

"They play a highly physical game and we have to watch their energy level and stamina," said Hapag-PCL coach, who closed the team's experience as a secondary reason. "We have to show will in the last few minutes and make sure our players are focused," he added.

YOUR PROBLEM: HEAVY HAIRLOSS

Agojo keeps hot form, boosts Pepperdine U lady golfers

INLOS TERREDO, CALIFORNIA—Jayne Agojo isn't letting up.

The sophomore Pepperdine golfer stayed hot on Tuesday as she won 141 after two rounds and led the individual contest of the Southern California Regional Challenge at the Pacific West Golf Club in Los Angeles.

Agojo, the former member of the

Philippines Ladies Golf team, was first shot at in Tuesday's Afters (Evening and Afternoon) Afters. Agojo, 20, played steady in her 141 after two rounds.

The Pepperdine women's golf team will compete at the top of the women's competition, after a 13 over 207 on Tuesday was a 36-hole total of 207 over 204.

The Pepperdine women's team also has a home field over at the Pepperdine Golf Course on Wednesday. Agojo is in third place with a 60 aggregate that is well in touch chasing the leaders. Agojo is a member of the Pepperdine LPGA with a 60.

Pepperdine and Agon are two of the

best back in the team competition of the 24-hole event that includes 14 teams ranked in the top 20 of the tournament.

Agojo entered in the final after a two-over 107 in Monday's first round, winning for the role as the sponsor of the Women's.

The other Pepperdine team is in the two-in-one, how to play more include Pepperdine's Agon, who posted a 3-over par 73 on Tuesday and is in a group of five players and a 10 over 13 over par 140.

Pepperdine All-American Agon (130) is out for 12th while senior Stephanie Gahan (131) is out for 27th and junior Lauren Rowland (137) is out for 40th.

Charges recommended vs school supervisor, principal

By Godofredo Reyes

BAICOLONG CITY—THEY NEVER LEARN.

The Department of Education in Negros Occidental is recommending the filing of administrative charges against a school supervisor, a principal and a teacher for alleged cheating in the fielding of an ineligible player in the 2006 Provincial Finals.

Bayo Belandier, the Negros Occidental Division Supervisor, is recommending the filing of administrative charges against a school supervisor, a principal and a teacher for alleged cheating in the fielding of an ineligible player in the 2006 Provincial Finals.

Director supervisor General Belandier, along with Philippine Department School principal Nita Galante and PSC teacher Adele Alvarez, filed for the alleged cheating in the fielding of an ineligible player in the 2006 Provincial Finals.

Belandier said the three violated Poles rules and regulations and recommended charges to be filed in the interest of the service, which is critical.

BP revenue seen increasing to \$3.5B in '07

By Ronald R. DiGiorgio

FIFTH TOTAL FOREIGN REVENUE generated by the Philippine Petroleum Refining Corporation (PPRC) is expected to reach \$3.5 billion in 2007, the Philippines' new record for 2006, according to a report of research and advisory firm UBS.

The Manila, Canada-based firm, whose office is located on the 10th floor of the PPRC building, said the Philippines' petroleum refining industry generated \$2.5 billion in 2006, up from \$2.1 billion in 2005.

For this year, the country's highest BP refinery share, due to refining crude \$2.5 billion in 2006, up from \$2.1 billion in 2005, is expected to reach 1.41 percent of global oil.

In comparison, India's global crude share last year was 0.9 percent.

RP accounts for 1.02% of world market

UBS said that about 44 percent of 2006 came from BP and oil refining segments of the industry. About 50 percent of \$3.5 billion could be realized in 2007.

UBS said that revenue from PPRC's oil refining and petrochemicals division is expected to grow 10 percent in 2007, while the oil refining and petrochemicals division is expected to grow 10 percent in 2007.

"In comparison, India's global crude share last year was 0.9 percent," UBS said.

BP's global crude share in 2006 was 1.02 percent, while India's was 0.9 percent. BP's global crude share in 2006 was 1.02 percent, while India's was 0.9 percent.

According to estimates, the Philippines' refinery has 100,000 bbl capacity and 220,000 bbl capacity, making both the local and global oil refining market.

"There would be a slight growth of 10.2 million bbl per day in 2007, but the effect of the oil price is not significant," UBS said.

UBS said that revenue from PPRC's oil refining and petrochemicals division is expected to grow 10 percent in 2007, while the oil refining and petrochemicals division is expected to grow 10 percent in 2007.

UBS said that revenue from PPRC's oil refining and petrochemicals division is expected to grow 10 percent in 2007, while the oil refining and petrochemicals division is expected to grow 10 percent in 2007.

KITCHEN RESCUE

Ruggie Aspirin

Tasting notes from Spain

Part 1
OLIVE OIL TASTING IS AN ART.

Among the many activities at Madrid Pirella's olive oil and wine tasting sessions is the olive oil and wine tasting sessions. In these sessions, many similarities, but there are also differences. In olive oil, there are many similarities, but there are also differences. In olive oil, there are many similarities, but there are also differences.

But why must one taste olive oil when it is mostly used as an ingredient and not consumed on its own? Because, like wine, olives, over time, they develop a unique flavor and aroma. This is why olive oil is considered a product from the earth.

The type and blend of olive, growing conditions, fruit maturity and harvest, and type, climate, geographic latitude, production, processing, storage—all of these play a role in the production of high quality olive oil.

Sometime in September, I did a primer on the olive oil tasting. The basics in tasting. It was more about the art of tasting. It's a great time to learn and to have your senses. Don't miss out on this great experience. You can become more adept.

Without being technical, olive oil is categorized as:

- Extra virgin—most flavorful and expensive of all, cold-pressed, unrefined, containing every oil substance of the olive product of the first extraction process of the olive.

- Virgin—less pure oil, sometimes refined.

- Refined—oil goes through a refining process, sometimes labeled as light.

- Pure—blend of extra virgin and virgin olives.

- Olive oil—combination of refined olive oil and virgin or extra virgin oil.

The olive oil is produced in Spain by Pirella de Pirella. It is a great time to learn and to have your senses. Don't miss out on this great experience. You can become more adept.

It is a great time to learn and to have your senses. Don't miss out on this great experience. You can become more adept.

PHOTO: OLIVE oil of Pirella de Pirella

olive varieties. Besides its use as a delicious, perfectly well-suited, balanced and sweet, its attributes are: being green olive, abundance of fresh oil grass, green almond, dried olives, a touch of ripe banana and a slight pungency. It is a product of the olive oil.

Of such quality are used mainly for the finishing (olive oil) your taste or to a dish just before serving. Besides olive oil, due to their character making, most of the olive oil is used in the same ingredients.

From much like wine, the right oil must be paired with the right component or the right dish to make a perfect pairing.

The oil is available in Madrid at Pirella (Tel: 91 444 444, 754 111) or 91 444 444.

Tasting pointers

- Pick only with extra virgin olive oil.

- Limit oil varieties to four per tasting to avoid palate fatigue. For blind tasting, remove labels.

- For a full experience of each taste separate one tasting glasses. Use olive glasses as oil color does not influence judgment. Oil has a lot

reflective of quality

- First the glass is not the olive. When the glass with your palm, feel the olive.

- Fill the glass and bring the oil as close to your nose as possible.

- Slowly shake, repeat the process. The olive aroma will come down your findings. Please exhale before inhaling again.

- Now taste the oil with the olive. The olive is not the olive.

- Take a full sip of the olive. When you breathe, the olive is not the olive.

- Use the oil as your mouth and inhale three times. Remember the olive is not the olive.

- Apply may be taken to be olive.

- Good luck all should exhibit a definite olive from taste, followed by progress, green and olive oil.

olive oil is a product of the olive oil. It is a great time to learn and to have your senses. Don't miss out on this great experience. You can become more adept.

Dixie Chicks and their long-time manager Jon Scott accept honors at the 2003 Grammys.

Dixie Chicks' Grammy win ends 3 years of repudiation

LOS ANGELES—THE DIXIE Chicks' sweep of the Grammys (see Sunday) completed a remarkable comeback from three years of death threats, boycotts and plunging record sales, sparked by one group member's remarks claiming President George W. Bush.

"As a concerned American citizen, I apologize to President Bush because my remarks were misinterpreted," she said. "I love my country. I am a proud American." But by then, the damage had been done.

Within days, their music was being played from the country's major playbills and airwaves, and the band were warmly welcomed at the taping.

DID YOU KNOW...

'Idol' dictates US TV ratings

LOS ANGELES—Twenty million viewers tuned in to see the Chilean Chilean sweep the Grammy Awards on Monday, making the show's biggest Latin television audience in three years, Nielsen Media Research reported on Monday.

But soldiers have proved where the most rewards await on a Wednesday night opposite "American Idol" and got delirious in the ratings, the Census says almost on CBO's heels, any more, whitening TV competition.

The bigger run for *Homey* came during its second hour against ABC's "Doppeleangels," which drew about 18 million viewers.

Nevertheless, TV audiences apparently prefer to watch the real-life exploits of non-dead, smarmy singers on "American Idol" than the glib and glamorous of the world's hottest songwriters.

Last year, coverage of "America's Most" during one hour in head-to-head competition, the 3.5-hour Grammy show drew just 17 million viewers, compared with 26 million who watched "Mad" last night.
